

THE PERSONAL ELEVATOR

FOR VER THE ROAD TRUCK DRIVERS!

GO UP 
OR DOWN 

The Over the Road Power Step is the perfect solution for getting in and out of over the road trucks. The unique design works just like a personal elevator, lifting you up for entry and down for exit from the rig. The Over the Road Power Step is easy to install, easy to operate and offers the ultimate in personal safety. You will experience:

-  Quick, reliable access to the cab
-  Safe entry and exit - no more narrow or slippery steps to worry about
-  Greatly reduces the likelihood of accidents or stress and strain
-  Minimizes the cost related to accidents - downtime or insurance claims

The Over the Road Power Step features high quality, all steel construction. Installation is simple and straight forward and can be done by a do-it-yourselfer or a dealer or service center. For more information on the latest in a product designed specifically for the safety of over the road drivers, please visit www.morryde.com
