## THE ART OF LIFTING

HYDRALIFT SPORTS ADAPTOR HLA4648

TRIKE LIFT HL5498

Spyder

HD Trike

- Hydralift's Patented Design
- Self Contained Hydraulic Lift
- Carry Your Bike/Tow Your Car
- Lightweight & Powerful
- Lifts Over 1,000 Pounds
- One Person Operation
- Easy Push Button Operation
- Automatic Locking System
- Highest Ground Clearance
- Added Safety & Theft Deterrent
- Folds for Easy Storage

HL4288 / HL4285

### Hydralift's Patented Design:

Hydralift mounts and lifts higher than any other power lift, providing added security and valuable ground clearance. In addition, you are lifting your motorcycle up out of the way from the dirt and grime of the road.

### Lightweight:

Hydralift's patented design weighs in at only 280 pounds, making Hydralift the lightest power lift on the market. It can be installed to the rear on most RVs.

- Class A - Gas & Diesel
- Bus & Truck Chassis
- 5th Wheels
- Super Class C

*Do not exceed Mfg's GVWR*

**No dragging in and out of driveways**

### E-Z Loading:

Hydralift's loading ramp drops flush to the ground so you have easy ground level roll-on roll-off for your motorcycle.

### Powerful:

Only Hydralift can offer it's patented hydraulically driven design. Hydraulic power provides more lifting capacity with the lightest expensed weight. At 1,000 pounds of lifting capacity, Hydralift is the most powerful power-lift on the market.

### Strength and Dependability:

From a light load to the heaviest load you will find the superior hydraulic components of Hydralift seem to make your motorcycle lift on your RV move consistently and effortlessly no matter the weight the Hydralift is lifting.

### Automatic Locking System:

Hydralift utilizes its patented automatic locking system with an easy to use single handle release.

Assuring secure stable storage and transport of your motorcycle.

Automatic means no need for manual pins, clamps or bolting to lock your motorcycle lift into place.

### Folds for Storage:

When not in use, Hydralift can easily be removed or placed in the stored and folded position on your RV.

Simply remove two pins to fold the Hydralift to the rear of your RV, allowing for unrestricted use of Hydralift's Class III 8,000 pound towing receiver.

### Rear Access:

With Hydralift there is no obstruction to the rear of your RV. The Hydralift's frame is a welded chassis that moves up and down together as one unit. When operating a Hydralift the complete lift moves out and away from the rear of your RV allowing access to compartments and/or the engine's access door.

# SCOOTER LIFT

Installs on many Class A, B, C Motorhomes, Pick-Up Trucks, Vans and many 5th wheel trailers

Moibility Scooter

HL2474

CLASS C MOTORHOME

Utility Box

Tow your tow car with the optional trailer hitch adaptor.

HL2474HA

5TH WHEEL TRAILER

PATENT PENDING

Barbeque

Optional service lift stand available, adapts the HL2474 as a service lift or use at home for storage lift.

## TRIKE LIFT

## HLA4648 SPORTS ADAPTOR

MOTORCYCLES • QUADS • PWC • GOLF CARTS

Harley Davidson Trike

Honda Goldwing Trike

- 800lb capacity
- Bolt on application

• The HLA4648 Sports Adaptor replaces the standard motorcycle ramp on the HL4288/HL4285 Motorcycle Lift.

• The Sports Adaptor allows you to place an arrangement of Ramps, Rails or a single Platform for various cargo.

HL5498

HLA4648

Can-Am Spyder

Does not come with ramps, rails or platform

## HYDRALIFT HYDRALIFT NO-TOUCH GARAGE ENCLOSURE

**Expandable to Fit Larger Bikes**  
**Portable**

- E-Z to Use
- Easy to Store
- Strong & Lightweight
- Cover your bike in seconds
- Enclosed aluminum floor pan
- Remove and use as a portable garage at home or while on the road
- Added security, providing a safe place to keep your motorcycle while on the road or at home

HLGC42 Garage Enclosure

## HYDRALIFT LED LIGHT KIT

E-Z Bolt-On

Add a set of super bright LED lights to your Hydralift motorcycle ramp. The LTK4288 light kit comes with everything to install and is a bolt on application.

LTK4288 LED LIGHT KIT

## HYDRALIFT WHEEL CHOCK

E-Z Bolt-On

Keep your motorcycle in place without the use of your kick stand to assist you in tying down your bike. When traveling the HLWC39 will keep forward wheel pressure to the wheel stop.

HLWC39 Wheel Chock

## HYDRALIFT FORWARD TIE DOWN

E-Z Bolt-On

*Will not work with the HLGC42*

- Great for motorcycles with a front fairing.
- Adds an additional tie down location furthest position forward to the motorcycle ramp.
- Can also be used to extend the ramps length.

TDF32 Forward Tie Down

## HYDRALIFT ALUMINUM PAN

E-Z Bolt-On

Add a lightweight aluminum floor pan to your Hydralift Motorcycle Lift.

*This item is included with the HLGC42. Not to be used for carrying weight.*
