FLAT SCREEN TV MOUNTS FOR HOME AND RV!

MOR/ryde Int has developed a line of flat screen TV mounts for both home and RV applications. MOR/ryde recognized that RV's required their own specially designed TV mounts that took into account the space and mounting area available in the RV. The RV TV mount line includes many brackets with swivel, tilt, and extension options for a wide range of TV sizes. Also available are motorized TV lifts that are perfect for "hiding" the TV in a bookcase, cabinet or behind a fireplace. Each TV mount is housed in attractive retail packaging.

MOR/ryde has also introduced a line of TV mounts for home applications. These mounts are available with swivel, tilt and adjustment features as well. The home TV mount line can accommodate TV's with various VESA mounting hole patterns and up to 100lbs in weight.

For more information on the full line of MOR/ryde TV mounts and other aftermarket specialty products, please visit www.morryde.com or call 574-293-1581.
