SMOOTHING OUT THE ROUGH SPOTS.

MOR/RYDE® RE SYSTEM
A SMOOTH SUSPENSION UPGRADE FOR FIFTH WHEELS & TRAVEL TRAILERS
Introducing MOR/ryde’s RE (Rubber Equalizer) System for Leaf Spring Equipped Trailers and Fifth Wheels.

Roads start their life as smooth, seamless carpets of asphalt ... then it's all downhill from there. Towing a trailer or fifth wheel over some of these roads can feel like you’re on an unwanted offroad adventure.

To make matters worse, a typical RV leaf spring suspension system can’t adequately handle the job, sending jarring road shocks straight into the frame of the trailer and its contents.

MOR/ryde has a better way. Replace the steel equalizer of your leaf springs with MOR/ryde's rubber equalizer, and get the performance of a high-end suspension system at a fraction of the cost.

› SMOOTHER TOWING THAN CONVENTIONAL LEAF SPRINGS
› PROTECT YOUR TRAILER FROM DAMAGING ROAD SHOCK
› AFFORDABLE LEAF SPRING SUSPENSION IMPROVEMENT

Protect your investment in your trailer with the MOR/ryde RE System. Available for aftermarket installation on 2 and 3 axle trailers—or from select manufacturer’s on new units. The RE System installs in under a day on most leaf spring equipped trailers and fifth wheels. For more details, visit our website at www.morryde.com or call 574-293-1581.

The MOR/ryde RE (Rubber Equalizer) System isolates and absorbs road shock offering a smoother towing experience.
THE MOR/RYDE RE SYSTEM WORKS WITH THE EXISTING LEAF SPRINGS AND AXLES BUT REPLACES THE STEEL LEAF SPRING EQUALIZER.

THE MOR/RYDE RE SYSTEM PROVIDES BETTER PROTECTION OF YOUR TRAILER WITH UP TO A 30% IMPROVEMENT IN THE DAMPENING OF ROAD SHOCK.

THE MOR/RYDE RE SYSTEM ISOLATES AND ABSORBS ROAD SHOCK AND INCREASES THE DYNAMIC TRAVEL OF THE LEAF SPRING SUSPENSION.
MOR/ryde® offers lots of smooth solutions to rough roads

The entire MOR/ryde product line can be summed up in a single word – smooth. In addition to our RE System, we offer a variety of other RV solutions for smoother towing, smoother riding and smoother braking. We also provide expert advice and professional installation. No matter how challenging the roads may get, you can count on MOR/ryde for smoothing out the rough spots.

› FIFTH WHEEL PIN BOX UPGRADES
The MOR/ryde Pin Box System was designed to reduce the harsh chucking and jerking action of towing a fifth wheel. Its advanced rubber shear spring technology absorbs shock to your truck for stress-free and more comfortable travel ... leave rough towing behind.

› TOW VEHICLE UPGRADES
The MOR/ryde Rubber Leaf System makes the truck ride smoother, whether you are towing a trailer or riding empty. It’s the definitive solution for rough-riding trucks.

› TRAILER BRAKE UPGRADES
For enhanced peace of mind, turn to MOR/ryde for a complete line of trailer brakes. You can upgrade to disc brakes for maximum braking performance or have larger electric brakes installed. Sealed cartridge bearings, which eliminate the need for annual bearing maintenance, are also available for both electric and disc brake systems.
