To order a pin box system, please identify the following:

- Model Number of the stock pin box (usually found on a label on the pin box)
- GVWR* of the trailer: MORryde has a specific rubber spring for different weight ratings

If the stock part number is *not available*:

OR

- Determine the bolt pattern (A),
- Measure the width (B)
- Measure the distance from center of king pin to center of first row of bolts (C)
- Visit MORryde.com and search for the Rubber Pin Box identification guide to convert these measurements into a MORryde part number.

* GVWR above are general guidelines and may not directly correlate to shear spring rating.
